WiFi enabled thermostat, residential only, limit 2 per household.....**\$25**

Note:

TC&S limits rebates to services that use more than 6000 kilowatt-hours on an annual basis (eligible services include lake homes, shops, barns, etc.).

The rebate program is subject to availability of funds and no used or rebuilt appliances or equipment will qualify for any portion of the program. All equipment must be installed in a permanent home on Intercounty's electrical system to qualify and are to be under the original manufacturer's warranty.

Intercounty must be contacted within 60 calendar days after the equipment is installed. An original receipt and copy of the warranty must be provided. Intercounty must verify the new electric appliance or equipment by visually observing the appliances or equipment.

INTERCOUNTY MUST BE NOTIFIED WITHIN 60 DAYS FROM THE RECEIPT DATE TO BE ELIGIBLE FOR THE ASSOCIATED REBATE.
