## Operation Round-Up Notice of Cancellation

---

### ABOUT OPERATION ROUND UP

Intercounty's Charitable and Educational Foundation, commonly known as Operation Round-Up, is run by an appointed board consisting of seven volunteer Co-op member delegates who meet every month to review applications and allocate funds. Much care is given to insure that the program is not abused.

Operation Round Up helps local community organizations, individuals, and families within the Intercounty service territory. Each application is considered separately and the delegates take into account the financial ability of the applicant to cover the costs they are requesting, as well as the importance of the assistance they are requesting.

Money for organizations is given directly to the organization. For individual assistance, the money is given towards the expense and NOT to the individual. This insures that the money is used for its intention and will not be abused.

### HOW ELECTRIC BILL IS AFFECTED

Round Up will cost from 1 cent to 99 cents (or \$1 a month for levelized accounts), that is 12 cents to \$12 per year. For example, if your bill is \$96.50, your Round Up contribution that month will be 50 cents and your total bill due will be \$97.00. The average amount a member will pay annually is just over \$6 a year; a small amount to make assistance available to many.

### ENROLLMENT GUIDELINES

With your new electric connection, your account will be automatically added to Operation Round Up. Your monthly donation will go to help your neighbors in need. If you wish to remove your new account from Operation Round Up and opt-out of donating your spare change, please fill out the information below, making sure to sign and date, and return to an Intercounty office.
